MYTHEESWARAN S

B.Tech Information Technology | Final Year | Full Stack Web Developer (AI)

Email: mytheesmythees85@gmail.com | Phone: +91 9123595776 | GitHub | LinkedIn

OBJECTIVE

Enthusiastic and detail-oriented final year B.Tech IT student seeking a Full Stack Development Intern role at Infilect. Proficient in Python, JavaScript, and backend REST API development, with hands-on experience in modern frontend workflows like React.js and relational databases including PostgreSQL/MySQL. Passionate about architecting scalable full-stack web solutions and integrating Generative AI capabilities into real-world applications.

EDUCATION

B.Tech – Information Technology | Gnanamani College of Technology *2023 – 2027*
CGPA: 8 / 10 (80%) | Final Year

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript (Basics), C
Frontend Development: React.js, HTML5, CSS3, JavaScript, Responsive Web Design
Backend & APIs: Python (Django / Django REST Framework concepts, Flask), RESTful API Development
Databases: PostgreSQL, MySQL, SQLite

Developer Tools: Git, GitHub, VS Code, Postman

EXPERIENCE

Generative AI Internship – Appin Technology *Duration: 15 Days*

- Completed a short-term internship focused on Generative AI concepts, tools, and real-world applications.
- Gained hands-on exposure to Generative AI workflows, strengthening full stack AI-integration fundamentals.

Full Stack Web Development Course – Infoem *Duration: 1 Month*

- Completed a one-month full stack web development course covering frontend and backend fundamentals.
- Built practical understanding of web application structure, client-server interaction, and core full stack web technologies.

PROJECTS

1. Online Exam & Classroom Mobile Usage Detection [Student Focus Tracker]

- Built a detection system to identify unauthorized mobile phone usage during online exams and classroom sessions.
- Aimed at maintaining academic integrity and reducing distractions in educational environments.
- Technologies: Python, Computer Vision, Image Processing

2. TIWON — Digital Workspace Notes | Flask, MySQL, JavaScript

- Developed an all-in-one productivity platform consolidating notes, passwords, team collaboration.
- Compliance tracking with strict PIN-protected vault and automated reminders.
- Built with Flask + MySQL (14 database models, 22 templates), dual-tier security, and role-based team workspaces for seamless project coordination.
- Implemented APScheduler for automated compliance reminders (7/2/1-day alerts), inline document preview engine, and 100% test coverage.

KEY STRENGTHS

- Strong proficiency in end-to-end web architecture, bridging reactive UI (React.js/JS) with secure Python backend APIs.
- Solid grasp of relational database design, query optimization, and schema modeling (PostgreSQL / MySQL).
- Proactive learner with strong enthusiasm for building AI/Generative AI-powered web solutions.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.

Place: Namakkal, Tamil Nadu.
Date: October 2026
